SIRI ASTRA - Mesotrione 2.27%+ Atrazine 22.7% SC (Selective Herbicide)

Chemical Composition: Xanthan gum (Thickener) 0.14%/w/w. Attapulgate clay (Thickener) 0.9 %w/w. 1,2-benzisothiazol-3-one (as a 20% solution) (Preservative) 0.18%/w/w. Polydi methylsiloxane (Antifoam agent) 0.43%/w/w. Citric acid (Buffers) 0.91%/w/w. Phosphoric acid solution (Buffers) 1.0 %w/w. Aqueous solution of Dglucopyranose oligomeric C9-C11 alkylglycosides (Adjuvant) 18.18%/w/w. Water (Solvent) Q.S.%. Mesotrione a.i. 2.27% w/w. Atrazine a.i. 22.7%/w/w. Acrylic graft copolymer solution (Dispensing Agent) 1.82%/w/w.

Direction Of Use: Please read enclosed leaflet before use. **Precautions:** Do not use cooking utensils for preparing the spray solution. Use wooden stick for stirring the spray solution. Avoid contact with skin, eyes, mouth and clothing. Avoid inhalation of fog, vapors or spray mist. Wear protective clothing (full sleeve shirt and pants), chemical resistant hand gloves to avoid contact with the skin, mask, goggles, hat and boots, while handling the product. Do not eat, drink or smoke while applying the product. Wash hands with soap and plenty of water and change clothes after the work is over. Avoid contamination of air and water bodies with the herbicide. Also wash the contaminated clothes before re-use. Newly treated areas must not be grazed and all livestock is to be kept out until the treated area is dry. This product should not be applied (tank – mix) with any other chemical. Do not blow nozzle with mouth. Do not spray crops under stress. If any indisposition occurs, stop the work, follow first aid measures and call a physician immediately. Spilt product must not be re-used. Collect up spilt material thoroughly and bury it in a safe place. Rinse spilt area with plenty of water. It is dangerous to re-use empty containers. Rinse empty container three times before disposal and add the rinsate into spray tank before application. Do not re-use empty container to keep food items or for any other purpose.

Antidote: No specific antidote is known; apply symptomatic therapy. **First Aid:** If poisoning or any indisposition is suspected. Stop work immediately and call a physician. Show label to the physician. Remove the affected person from danger zone to a well ventilated room or to fresh air. If Ingested: Never give anything by mouth to an unconscious patient and never induce vomiting. Consult the doctor immediately. If Inhaled: Take the patient to fresh air and take care of body temperature. If patient is not breathing or breathing with difficulty, give artificial respiration, preferably with mouth to mouth breathing. Consult a physician. In case of skin contact: Affected parts of body e.g. finger, nails, etc should be washed with soap and water. All the contaminated clothes should be segregated and thoroughly washed with soap and water separately before use. If skin irritation persists, consult a doctor. In case of eye contact: Rinse gently with plenty of water at least for 15 minutes. If pain, irritation, redness or photophobia persists, consult eye specialist. **Symptoms:** Irritation to eyes, skin and respiratory tract may occur, product is skin sensitizer so it may cause skin allergy and other non-specific symptoms may be expected as labored respiration, nausea, vomiting, diarrhoea, headache and confusion.
